## Specifications Aadorf

## Aaadorf station

### Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).
- In all smaller stations only one sampling campaign may take place at the same time.
- In smaller stations, where no promotion areas are defined, the following rule applies: The max. 4 promoters can move freely on the station premises. Exceptions are platforms, underpasses, ramps and stairs.

## Specifications Aarau

## Aarau station

**S1** Distribution point, in front of Sapori, basement

**S2** Distribution point, in front of Swisscom Shop, basement

**P1** Promotion area,  $4 \times 3 = 12\text{m}^2$ , maximum height 2,68m

## Services

SBB free Wi-Fi	For further information, visit: <a href="https://www.sbb.ch/en/station-services/railway-stations/products/free-wifi.html">https://www.sbb.ch/en/station-services/railway-stations/products/free-wifi.html</a>
Storage room	Right next to the delivery ramp there is a room that can only be used as an interim storage facility if advance notice is given. The key is handed over by the caretaker.
Material storage at sampling points	Located below the stairs at the Press & Book shop. The material storage must be clean and tidy at all times. No storage of material overnight..
Access to the stand area by vehicle (truck)	No direct access to the stand area. Access via the normal delivery for shops via Bankstrasse. Without a key, it is only possible to leave the access road once. Attention: Maximum entrance height 3.7 m. From there the goods can be transported to the promotion spaces by luggage trolleys (no iron wheels) or deposited in the temporary storage area. See details on pages 9 and 10.
Sampling of refrigerated products	Against advance reservation with the caretaker there is the possibility to park a small cooling truck for half a day. Attention: Maximum length of the vehicle 6 m..
Restrictions for floor loading per m <sup>2</sup>	The wheeled containers must not be fitted with iron wheels. Heavy point loads are to be avoided, as the ground is very delicate.
Suspension points	Not available.
Power connection	“P1”: power socket approx. 10 m from the stand area.
Parking	There are no parking spaces available for the promoters. Please use the public station parking. Parking lots cannot be reserved. Payment directly on site according to the public conditions.
Access to WC facilities	Only possible with promotion key.

### Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).

## Delivery storage room

### Entrance delivery

Access via normal delivery route (Bankstrasse) for shops. The maximum entrance height is 3.7 m.

## Promotion key, storage room and material storage at the sampling points

### Promotion key

- The hand-over of the promotion key takes place on site by prior arrangement with the caretaker 079 277 80 53, tobias.schaerlig@equans.com.
- If the key is lost, compensation of CHF 500.– will be invoiced.

### Storage room

- As space for the temporary storage of promotional products, the technical room located in the delivery is available on advance notification at the caretaker 079 277 80 53, tobias.schaerlig@equans.com.
- No goods may be placed in front of the switch cabinet on the left wall.

### Material storage at the sampling points

- Under the stairs near the Press & Book shop.
- The material storage must be clean and tidy at all times.
- Overnight material storage is not possible.

## Parking for cooling vehicle

### Parking for cooling vehicle from 10.00

- By arrangement with the caretaker 079 277 80 53, tobias.schaerlig@equans.com a smaller cooling vehicle with a maximum length of 6 m can be left in the delivery area or a morning or afternoon.
- Electricity 220V and 380V in the delivery area. There is no adapter available.

### Parking for cooling vehicle before 10.00

- The cooling vehicle cannot be left permanently in this place before 10.00.
- Promotional or sampling material can be unloaded in portions, after that the cooling vehicle must leave the delivery ramp again.
- There is a parking space in front of the garage entrance where the vehicle can be left until 10.00.
- Advance notification to the caretaker 079 277 80 53., tobias.schaerlig@equans.com

## Power connections

### Power connection P1

The power socket is located about 10 m from the promotion area. The access is free.

### P1 Promotion area

At the meeting point near the column, basement, area  $3 \times 4 \text{ m} = 12 \text{ m}^2$ .

SBB free Wi-Fi	More information at: <a href="https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-ambahnhof/free-wifi.html">https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-ambahnhof/free-wifi.html</a>
Storage room	<p>During the construction work, there will be no storage space available for sampling goods until further notice.</p> <p>The parking lot may also be used for a delivery truck/truck or as storage. This must be announced 3 days in advance to the Facility Management. (Tel. 051 229 34 48).</p> <p>No storage space is available for the P1 area until further notice.</p>
Logistical information	On pages 10, 11 and 12 you will find the delivery route to the storage area (currently still parking for trucks) and to the promotion area P1.
Access to the promotion site with vehicle	Access for passenger cars and small trucks possible. Vehicles are allowed up to 3.5 t. The dimensions of the promotion area must be respected. The skylights must not be covered. Please note the floor loading and the dimensions for the access to the promotion area.
Promotion area P1	The surface of the square is very sensitive. It must be ensured that no sharp or angular objects are placed on it (e.g. heavy scaffolding or vehicle supports), as these could press dents into the surface. This risk is particularly high in warm weather and sunshine. All supports, wedges under vehicles and other parts must be underlaid over a large area and the floor must be protected accordingly. The organizer is liable for any damage.
Restrictions for floor loading per m <sup>2</sup>	Max. payload 500kg/m <sup>2</sup> . Punctual up to 2000 kg. Vehicles up to 3.5t.
Power connections	A sink electrant with the following connections is available for current. Access is available from Facility Management (051 229 34 48).
Access to WC facilities	Use public restrooms.
Parking	There are no parking spaces available for the promoters. The public station parking must be used. No parking spaces can be reserved. Payment is to be made directly on site at the public conditions.
Securitrans/Facility management	The handover of keys, registration for deliveries, etc., must be announced at least 2 days in advance to the Facility Management (Tel. 051 229 34 48).

### Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed. The wheeled containers may be brand-labelled (and so may beach flags etc.).
- With the split sampling point "S1" you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, i.e. a maximum of two per half sampling point.

## Delivery P1 area

Deliveries can be made by prior appointment with the Facility Management at the Media-Markt ramp.

From there you can get to the P1 area through an interstitial space.

The keys to open the gates can be obtained from the Facility Management.

## Power connections

### Power connection P1

The minimum distance of 0.60 m parallel to the guide line for the blind must be observed.  
Power connections are located in the floor box, 1 x CEE 32A (3X400V) und 3 x T13 10A (230V)

### Power connection P2

The power sockets (1 x CEE32A und 1 x T25 400 V 16 A) are located approx. 10 m from the area on the ground.  
You can obtain access via Facility Management.

## Delivery storage area

### Delivery

The car park for deliveries is located at «Place de la Gare 1, 1700 Fribourg». The use of the car park must be announced in advance to the caretaker (051 222 21 11).

### Car park

Vehicles must not be parked permanently. The maximum unloading time is 30 minutes.

## Storage area

Directly behind the delivery parking lot is a black door, through which you can get to the storage area.

After the entrance (black door), the storage area is located after approx. 25 m on the left side. Access only by appointment with the janitor (051 222 21 11).

Capacity of the storage area is max. 6 pallets.

Long-term parking space for the cooling vehicle max. 12 tons

It is possible to park a truck with trailer of max. 3.5 tons or a truck without trailer of max. 12 tons upon prior request.

## Long-term parking space for the cooling vehicle up 12 tons

Vehicles weighing over 12 tons may park in the parking lot along the road which is only accessible with a badge. You can get the badge from the janitor (051 222 21 11).

## Way from the parking lot to the distribution/fundraising place

From the car park, walk towards the ramp.

Walk along the platform 1 to the elevator.

Take the elevator to the ground floor.

When you get out of the elevator, the distribution/fundraising space is directly in front of you on the left.

## Parking space and power connection for the cooling vehicle

You can use the power connection which is located at the same place as the truck parking lot.

There is a 400V 16A CEE power connection available.

## Genève Cornavin station

**P1** Promotion area, historic station hall, ground floor,  $6 \times 5 = 30\text{m}^2$   
Maximum height 7m

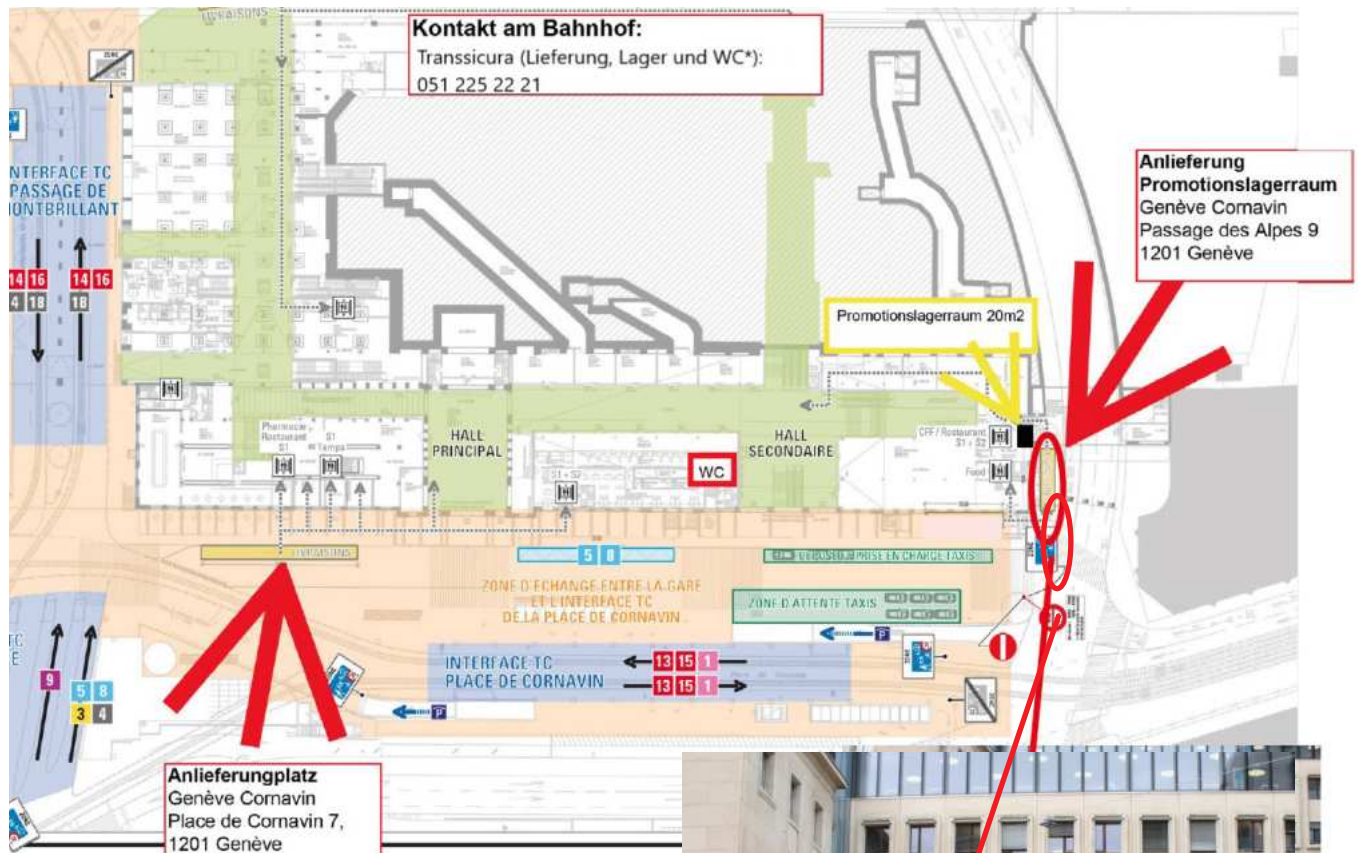

## Services

SBB Free-Wifi	More information at: <a href="https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-ambahnhof/free-wifi.html">https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-ambahnhof/free-wifi.html</a>
Storage room	20 m2 exclusively on request. Access only with key. The key must be picked up from Transsicura employees upon arrival at the station and returned to the Transsicura employees at the end of the advertising measure or in the case of several-day measures in the evening. Unreturned keys will be invoiced with CHF 100.– to the contractor of the advertising contract.
Access to the stand area with vehicle (truck)	This is possible, but SBB must be contacted in advance. Entrance dimensions: width: 3.70 m / height: 3.50 m Load max. 500 kg/m <sup>2</sup> . Sensitive marble floor
Parking	The city of Genève does not provide parking for trucks. Trucks must leave the delivery area within 30 minutes at the latest. The public car park «Place de Cornavin» is available to promoters directly under the Place de la Gare. The maximum permissible vehicle height is 2.5 m (parking deck 1) or 2 m (parking deck 2). For more information, please visit: <a href="http://www.geneve-parking.ch">www.geneve-parking.ch</a>
Sampling of refrigerated products	Only possible with restrictions; no long-term parking for refrigerated trucks. However, the storage room can be cooled down to +4°C on request.
Maximum usable height on the promotional area «P1»	This is 7 m.
Power connections	See details under power connections.
Access to WC facilities	Access only with a code. The code will be sent to you by e-mail from Facility Management.
Opening hours train station	Sunday-Thursday: 4.15 – 1.45 am Friday-Saturday: 4.15 am without interruption until Sunday evening 1.45 am

### Important sampling informations

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed. The wheeled containers may be brand-labelled (and so may beach flags etc.).
- With the split sampling point “S1” you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, i.e. a maximum of two per half sampling point.

## Delivery storage room

### Parking for delivery purposes only (max. 30 minutes)

On the day of the promotion, the opening of the delivery area and the storage room must be requested by phone at Transscura (051 225 22 21). If Transscura is not available, please contact facility management on 079 369 82 98 (6.30-12.00 h / 13.00-17.00 h).

### Storage room

- About 20 m2 (max. 9 pallets).
- Only by appointment with SBB Immobilien, at least one day before the start of the promotion, phone 051 225 22 21. On request, the room can be cooled down to +4°C.
- No goods or personal items may be deposited outside the room. Lockers are available near the storage room. These are accessible with a key.
- Keep the room clean; remaining goods must be removed.
- The door leading into the station must be locked.

## Power connections

### Power connection **P1**

The power connections are located next to the advertising space.

1 x CEE 32 A three-phase alternating current (400 V)

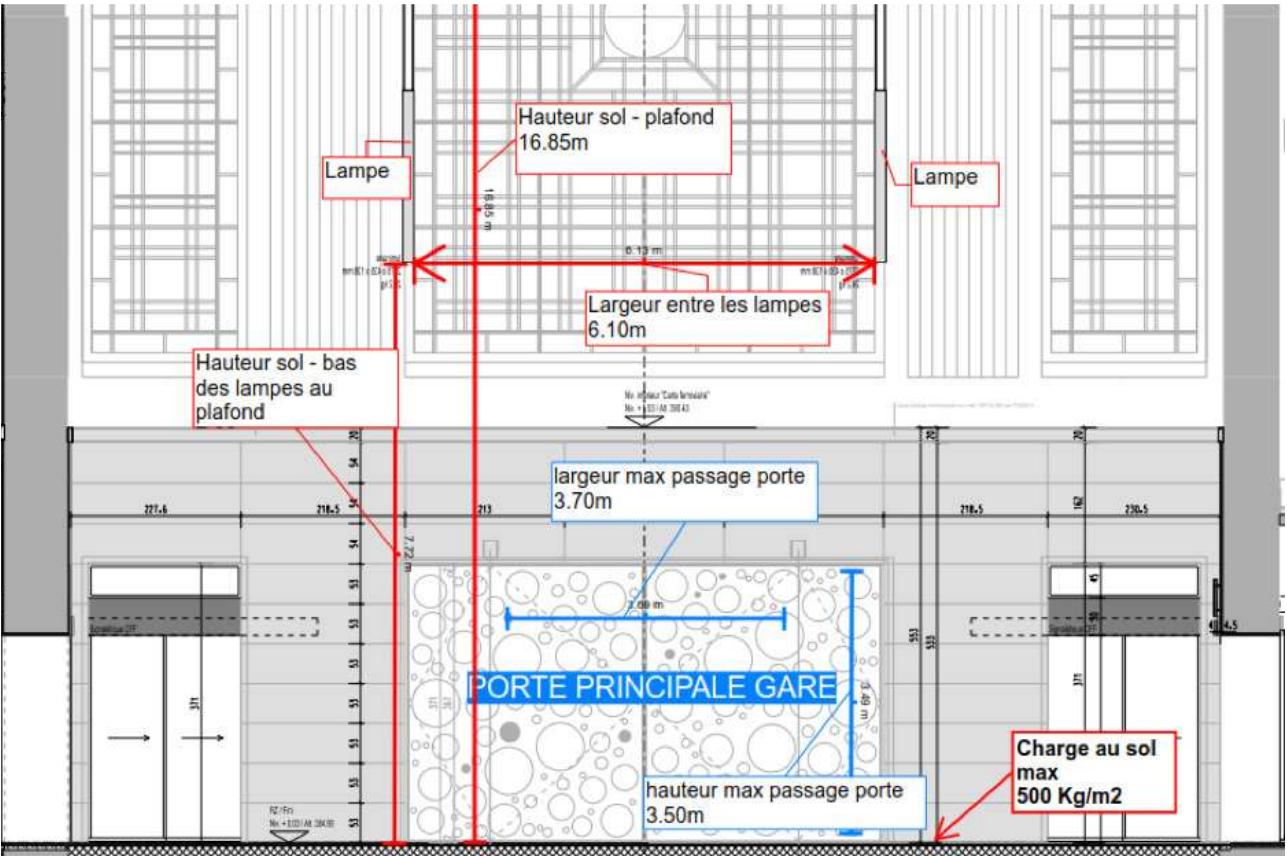

3 x T25 Suisse 16A three-phase alternating current (400/230 V)

Details for space utilization

The maximum usable height in the main hall is 7 m.

## Leistungen

SBB Free-Wifi	Der Service ist auf 60 Minuten am Stück beschränkt. Nach zwei Stunden Pause kann wieder gesurft werden. Weitere Informationen unter: <a href="https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-am-bahnhof/free-wifi.html">https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-am-bahnhof/free-wifi.html</a>
Lagerraum	Es besteht die Möglichkeit, gegen frühzeitige Voranmeldung (mindestens 3 Tage zuvor) beim Facility Management (051 225 22 21), während den Promotionen/Samplings, einen Lageraum als Zwischenlager zu nutzen. Ein Schlüssel für den Zugang des Lagerraums kann beim Facility Management gegen Voranmeldung bezogen werden. Der Schlüssel muss danach wieder beim Facility Management zurückgegeben werden.
Sampling von gekühlten Produkten	Es besteht keine Möglichkeit, gekühlte Samplingaktionen durchzuführen.
Zufahrt Anlieferungsparkplatz mit LKW usw..	Die Zufahrt erfolgt über die Route de Chêne oder die Avenue de la Gare-des-Eaux-Vives. Der Anlieferungsparkplatz darf nur für das Abladen des Materials besetzt werden. Danach muss das Fahrzeug den Platz wieder frei geben.
Logistikinformationen	Es gibt eine Anlieferungsroute zur Promotionsfläche, den Samplingpunkten und zum Lageraum.
Restriktionen für die Bodenbelastung pro m <sup>2</sup>	Max. Nutzlast 500 kg/m <sup>2</sup> .
Stromanschlüsse	Für «P1», «P2», «S2» und «S3» ist eine Steckdose am Boden der Fläche vorhanden. Bei den Flächen «P1» und «S2» liegt die Steckdose direkt unterhalb der Fläche am Boden und bei «P2» und «S3» liegt die Steckdose 6 m von der Fläche entfernt.
Zugang zu WC-Anlagen	Öffentliche Toiletten benutzen.
Parking	Es stehen keine Parkplätze für die Promotoren zur Verfügung. Es ist das öffentliche Bahnhof-Parking zu benutzen. Es können keine Parkplätze reserviert werden. Die Bezahlung erfolgt direkt vor Ort zu den öffentlichen Konditionen.

### Wichtige Informationen für Samplings

- Blindenleitlinien sind mit einer Mindestdistanz von 60 cm freizuhalten.
- In Unterführungen und Untergeschossen gilt eine max. Höhe von 2,70 m für gebrandete Samplingbehälter (z.B. Beachflags). Allfällige Beschädigungen von Sprinkleranlagen sind Schadensschwer und gehen zulasten der Agentur oder des Kunden.
- Erlaubt sind pro Samplingpunkt nur rollbare Behälter für das Verteilgut. Die rollbaren Behälter dürfen ein Maximalgewicht von 10 kg haben und einen Maximalradius von 1,5 m aufweisen. Es sind nur zwei pro halber Samplingpunkt.
- Beim aufgeteilten Sampling sind nur zwei Kontaktpunkte pro halber Samplingpunkt zulässig. Die max. Anzahl Kontaktpunkte pro halber Samplingpunkt ist zwei.

## Logistical information

### Delivery and storage room

The goods are brought to the storage room via the official delivery at Robert-Zünd-Strasse, with a stay of up to 30 minutes. The sampling points are then delivered from the storage room.

### Delivery directly to the distribution point with small vehicle (without storage room)

The sprinter or minibus is located on the promotion car park (see map "PP") Luzern station, Robert-Zünd-Strasse. The distribution points are delivered directly from the car.

Important information:

- on request, a parking space for 2 Sprinter minibuses (max. length 7 m each) or 1 truck (max. length 9 m) is available (see photo next page)
- the emergency access must be clear at all times
- no storage of goods allowed on the promotion parking space
- please get in touch with the Luzern station contact point by e-mail at least 5 days in advance

### Goods lift

Number of goods lifts: 2 (2 t + 4 t) / height maximum 2.40 m / width maximum 1.70 m / depth maximum 3 m

Parking for delivery and cooling trucks

## Delivery storage room

The availability of the storage room is not always guaranteed. Please contact the contact point of Luzern station by e-mail at least 5 days in advance. The storage room must be returned in a clean condition. Residual material, waste, empty pallets, etc. must be disposed by the tenant.

- size: approx. 38 m<sup>2</sup>
- there is no power connection available
- door dimensions: height 2.10 m, width 1.30 m
- passage width from the storage room to the promotion spaces is 1.70 m

## Key box for storage room badge

### Accesses and door openings to the key box

The key box is located on the 1st floor, Zentralstrasse 1 (door on the right when you leave the elevator)

### Opening hours

**The key box for the badge of the storage room is accessible: Mon-Fri from 06.00 to 21.00.**

### Handling of the key box

Touch the center of the display.

Tap the «Anmelden» field.

Enter PIN and then tap «Login».

The right side of the key box is displayed and the authorized drawers open automatically. (If the drawers do not open automatically, please tap the corresponding no. «marked green» on the display).

For key removals (promo badge) tap at the bottom left on <<LZ HB Key Zentralstrasse 1, 1. OG

The display shows the left side of the key box. (the authorized slots are marked in green).

Open the door and remove the unlocked plug (will be marked with blue light for a short time).

### Warning:

Please note that all withdrawals must be returned to the key box at the correct no. or drawer each day in the evening. If this is not done, an alarm will be generated and Tech. F11 will be asked to look for the missing plug or its owner, which would cause costs.

## Height restriction «P1»

**P1**

Promotion area

If the full width of the promotion area is required, it is necessary to take into account the height restriction.

## Power connections

### Power connection **P1**

Electricity panel “type A”  
4 × T23 / 16 (230 V)  
4 × T25 / 16 (400 V)  
Total 63 A

Electricity panel “type B”  
2 × CEE / 32 (400 V)  
2 × CEE / 32 (400 V)  
4 × T25 / 16 (400 V)  
Total 63 A

The power connections must be ordered at an early stage. The contact point of the SBB facility management will be communicated with the approval.

## Services

SBB Free-Wifi	For further information, visit: <a href="https://www.sbb.ch/en/station-services/railway-stations/products/free-wifi.html">https://www.sbb.ch/en/station-services/railway-stations/products/free-wifi.html</a>
Storage room	It is possible to use a storage room as an interim storage facility during promotions/samplings by prior arrangement with the facility management. It is located one level below and is mainly accessible only via the stairs. A badge for access to the storage room can be obtained from the facility management upon advance notification. The badge must then be returned to the facility management.
Sampling of refrigerated products	There is no possibility to implement cooled sampling actions.
Access to delivery parking lot	Access via the normal delivery for shops via Gösgerstrasse. The delivery parking lot may only be occupied for unloading the material. Afterwards the vehicle must vacate the space.
Logistics information	There is a delivery route to the promotion area and the sampling points. Another delivery route leads to the storage room. See details on pages 10 until 12.
Restrictions for floor loading per m <sup>2</sup>	Max. payload 500k g/m <sup>2</sup> .
Power connections	For “P1”, “F” and “S1” there is a socket above the surface. The distance from the ground to the socket is 3.7 m. See info on the last page.
Access to WC facilities	Please use public toilets.
Parking	There are no parking spaces available for the promoters. Please use the public station parking. Parking lots cannot be reserved. Payment has to be made directly on site according to the public conditions.

### Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).
- With the splitted sampling points “S1” and «S2» you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, i.e. a maximum of two per half sampling point.

## Access to delivery parking lot

### Access to delivery parking lot

Access via normal delivery for shops (Gösgerstrasse).

## Delivery Promotion area and sampling points

### Delivery Promotion area and sampling points

There is an elevator right by the parking lot for deliveries. This elevator takes you one floor down into an underpass which is not accessible to the public.

### Code for elevator

The code for the goods lift can be obtained on advance notification from the facility management 051 222 21 11.

### Underpass

Once you reach the underpass, a tunnel leads to the other side of the platforms, where there is another elevator. With this elevator, you can directly get to the platform.

### Platform

When you come out of the elevator, turn left along the platform for about 80 m and you will reach the promotion space and the sampling points.

## Delivery storage room

### Delivery storage room

The delivery to the storage room is made from the delivery parking lot via the pedestrian underpass south.

## Storage room

### Storage room

- For the temporary storage of the promotion goods there is a storage room available in the south underpass by prior arrangement with the facility management 051 222 21 11.
- The necessary badge for the entrance to the storage room can also be obtained from the facility management by prior arrangement.
- The storage room is one floor lower than the promotion spaces and is only accessible via the staircase.

### Storage space in storage room

The storage area is located in a long room almost at the end. After entering through the first door, straight ahead through the next door. See photo.

### Storage space in storage room

After 2 doors and a corridor you reach the storage area on the left side. The place is marked with "PROMO" on the wall. It offers space for 3 to 4 pallets.

## Power connections

### Power connection P1

The power socket (230V/16A) is located 3.7 m from the floor above the promotion space.

### Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).
- In all smaller stations only one sampling campaign may take place at the same time.
- In smaller stations, where no promotion areas are defined, the following rule applies: The max. 4 promoters can move freely on the station premises. Exceptions are platforms, underpasses, ramps and stairs.

Storage room	Space for up to 20 pallets upon request, for details see delivery storage room.
Vehicle (truck) access to the promotion space	Via transverse hall platform 18, max. height 4,50 m, weight: max. 32 t. Please note: Blocking times for entrances, for details see logistics information plan on page 15.
Sampling of refrigerated products	Parking with cooling truck, maximum 9.4 m length and without trailer in "Hof Grün" possible with early reservation (details on page 17). The booking must be made at least 5 working days in advance via <a href="mailto:zhb.promo-support@sbb.ch">zhb.promo-support@sbb.ch</a> . Power connections for cooling units are available. The max. vehicle weight is 28 t. On request and if available a separate small refrigerated trailer of max. 5 m length can be parked on parking lot 21. Details according to plan "parking spaces in the short-term parking Museumstrasse" on page 19.
Suspension points	These are located 19 m above ground. There are 16 firmly defined suspension points. The towing capacity per point is between 200kg and 800kg.
Water and drainage connections	Only on promotion space "P1", ground supply shafts. Normal pressure 3.5 bar. Pressure increase up to 7 bar. Waste water outflow 100 mm.
Restrictions weight	Max. 32t truck. Vehicles or loads heavier than 6kN7m2 must be checked individually.
Floor anchoring	Only on promotion space "P1", punctual anchoring hooks for max. 500 kg tensile load.
Floor power sockets	Only on promotion space "P1", selective floor power sockets.
Access to toilet facilities	Access with SBB badge, to be ordered via the Facility Management: <a href="mailto:zhb.promo-support@sbb.ch">zhb.promo-support@sbb.ch</a> .

### Important sampling information

- Guiding lines for the blind must be kept clear with a minimum distance of 60 cm.
- In subways and basements, a maximum height of 2.70 m applies for branded sampling containers (e.g. beach flags). Any damage to sprinkler systems will have serious consequences and will be charged to the agency/client.
- A maximum of 4 promoters per sampling point and one rollable container per promoter for the distribution goods are permitted. The rollable containers may have branding (incl. beach flags etc.). Free-standing beach flags are not permitted. With the divided sampling points «S8», «S9» and «S10» you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, that is. max. two per half sampling point.

## Services

SBB Free-Wifi	More information at: <a href="https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-am-bahnhof/free-wifi.html">https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-am-bahnhof/free-wifi.html</a>
Storage room	Space for up to 20 pallets upon request, for details see delivery storage room.
Vehicle (truck) access to the promotion space	Via transverse hall platform 18, max. height 4,50 m, weight: max. 32 t. Please note: Blocking times for entrances, for details see logistics information plan on page 15.
Sampling of refrigerated products	Parking with cooling truck, maximum 9.4 m length and without trailer in "Hof Grün" possible with early reservation (details on page 17). The booking must be made at least 5 working days in advance via <a href="mailto:zhb.promo-support@sbb.ch">zhb.promo-support@sbb.ch</a> . Power connections for cooling units are available. The max. vehicle weight is 28 t. On request and if available a separate small refrigerated trailer of max. 5 m length can be parked on parking lot 21. Details according to plan "parking spaces in the short-term parking Museumstrasse" on page 19.
Suspension points	These are located 19 m above ground. There are 16 firmly defined suspension points. The towing capacity per point is between 200kg and 800kg.
Water and drainage connections	Only on promotion space "P1", ground supply shafts. Normal pressure 3.5 bar. Pressure increase up to 7 bar. Waste water outflow 100 mm.
Restrictions weight	Max. 32t truck. Vehicles or loads heavier than 6kN7m2 must be checked individually.
Floor anchoring	Only on promotion space "P1", punctual anchoring hooks for max. 500 kg tensile load.
Floor power sockets	Only on promotion space "P1", selective floor power sockets.
Access to toilet facilities	Access with SBB badge, to be ordered via the Facility Management: <a href="mailto:zhb.promo-support@sbb.ch">zhb.promo-support@sbb.ch</a> .

### Important sampling information

- Guiding lines for the blind must be kept clear with a minimum distance of 60 cm.
- In subways and basements, a maximum height of 2.70 m applies for branded sampling containers (e.g. beach flags). Any damage to sprinkler systems will have serious consequences and will be charged to the agency/client.
- A maximum of 4 promoters per sampling point and one rollable container per promoter for the distribution goods are permitted. The rollable containers may have branding (incl. beach flags etc.). Free-standing beach flags are not permitted. With the divided sampling points «S8», «S9» and «S10» you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, that is. max. two per half sampling point.

- S9** Gessnerallee passage, lower level
- S10** Sihlquai passage, lower level

## Power connections

### Power connections P1

The power connections for the promotion area “P1” are located in the recessed floor box. They must always be ordered from the Lichtwerk company. Additional costs from CHF 350. E-mail: [info@lichtwerk.ch](mailto:info@lichtwerk.ch) or phone: +41 44 380 58 68

### Power connection P2

In the rear wall of the information pillar

1 × CEE 32 (400 V)

1 × CEE 16 (400 V)

1 × T25 16 (400 V / 230 V)

## Delivery storage room

### Central delivery

- Possible at any time for a maximum of 30 minutes
- Longer than 30 minutes only possible from 13.00 an with prior notification at least 5 working days in advance at [zhb.promo-support@sbb.ch](mailto:zhb.promo-support@sbb.ch).

### Entrance central delivery

- Contact central delivery and take the goods to the storage room following the directions given
- Maximum vehicle dimensions: width 2.5 m  
height 4.0 m  
length 9.4 m
- Entry with semi-trailer or trailer is not possible

### Do not leave goods in the central delivery.

### Additional information for suppliers

- SBB does not offer pallet exchange
- No trolley is available on site

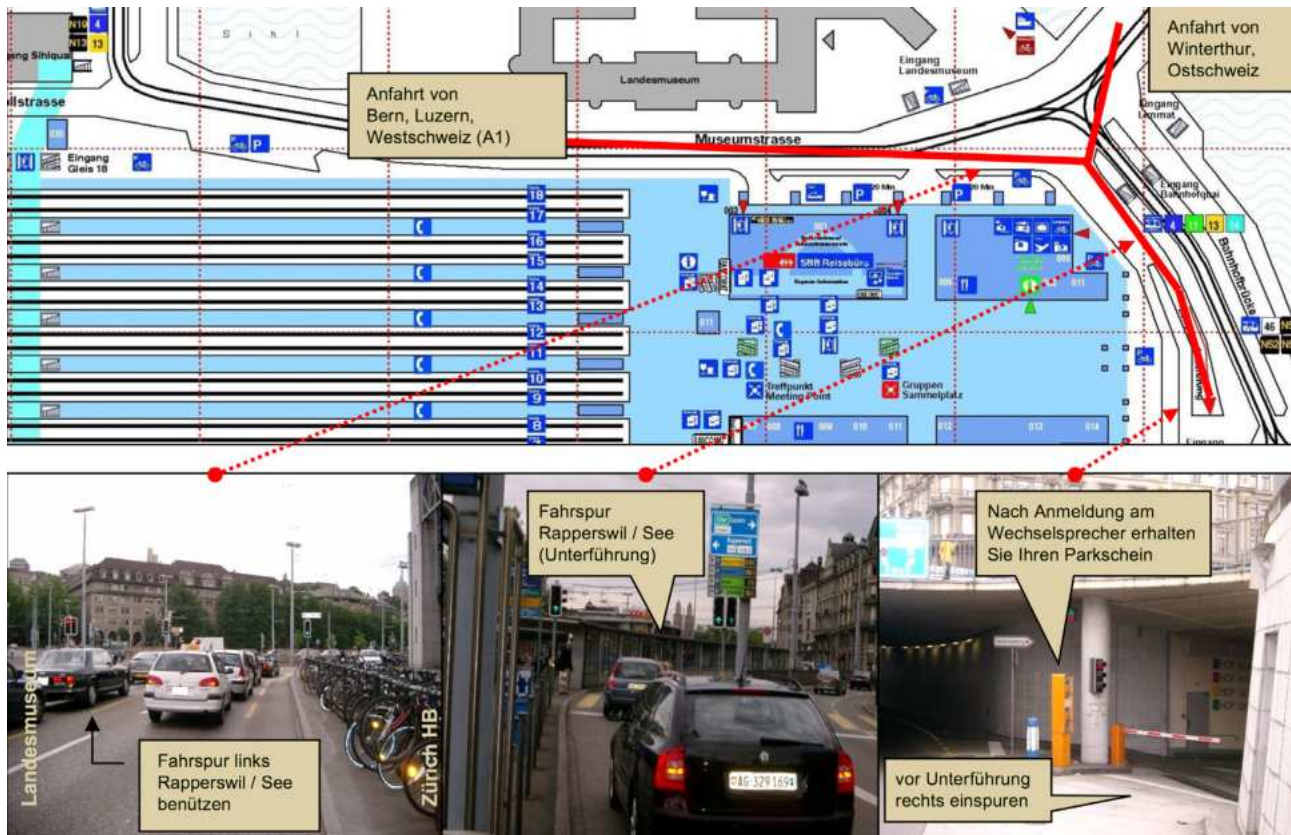

### Storage room

- You will receive the badge for the elevator and the storage room as well as further information on the exact location and procedure from the logistics contact point according to the contract
- Max. door dimension storage room: width 1.40 m, height 2.30 m
- Space for up to 20 pallets
- Please contact the logistics office in good time so that the required space can be reserved for you
- Availability can not be guaranteed

## Access to central delivery (ZA) to “Hof Grün”

- Use of the central delivery with passenger cars, delivery vans and trucks (without trailer or semitrailer truck!)
- Maximum vehicle dimensions:  
width 2.5 m / height 4 m / length 9.4 m

**Attention:**

**Due to the renovation of the north wing, the short-term parking on Museumsstrasse is not available. During this time, all deliveries for promotions must be made via the central delivery area.**

## Access to parking lot in “Hof Gelb”

- Reservation for the use of the parking lot must be made at least 5 working days in advance by e-mail to [zhb.promo-support@sbb.ch](mailto:zhb.promo-support@sbb.ch). Otherwise no access will be granted!
- There is **one** parking lot available.
- Parking card and badge are available against signature from Facility Management.
- No power connection available.
- Maximum dimensions for trucks:  
length: 5 m, width: 2.5 m, height: 2.2 m

The image is a composite of a map and two photographs, illustrating a route to the Landesmuseum in Winterthur.

**Map:** The top section is a map of the Winterthur, Ostschweiz area. It shows the route from Bern, Luzern, and Westschweiz (A1) to the Landesmuseum. The map highlights Museumstrasse and Bahnhofstrasse. Key locations marked include the Landesmuseum, Eingang Landesmuseum, Eingang Depot, Eingang Bahnhofstrasse, and various bus stops (e.g., 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100). A red dotted line indicates the route from the A1 highway to the museum.

**Photographs:** The bottom section contains two photographs showing the route from a street-level perspective.

**Left Photograph:** Shows a street view with a car in the left lane. Text overlays include "Fahrspur links Rapperswil / See benützen" (Use the left lane for Rapperswil / See) and "Zürich HB" (Zürich Hauptbahnhof).

**Right Photograph:** Shows a car entering a parking area. Text overlays include "Nach Anmeldung am Wechselsprecher erhalten Sie Ihren Parkschein" (After registration at the exchange speaker, you will receive your parking ticket) and "vor Unterführung rechts einspuren" (Before the underpass, change to the right lane).

- Use of the central delivery with passenger cars, delivery vans and trucks (without trailer or semitrailer truck!)
- Maximum vehicle dimensions:  
width 2.5 m / height 4 m / length 9.4 m

## Parking for cooling trailers

Parking	There are no parking spaces available for the promoters. Please use the public station parking. Parking lots cannot be reserved. Payment directly on site according to the public conditions.
Access to WC facilities	Public WC facilities for a fee.

### Important sampling information

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed. The wheeled containers may be brand-labelled (and so may beach flags etc.).

## Delivery

### Delivery

Deliveries are made via Dammstrasse.
