Storage room	Right next to the delivery ramp there is a room that can only be used as an interim storage facility if advance notice is given. The key is handed over by the caretaker.
Material storage at sampling points	Located below the stairs at the Press & Book shop. The material storage must be clean and tidy at all times. No storage of material overnight
Access to the stand area by vehicle (truck)	No direct access to the stand area. Access via the normal delivery for shops via Bankstrasse. Without a key, it is only possible to leave the access road once. Attention: Maximum entrance height 3.7 m. From there the goods can be transported to the promotion spaces by luggage trolleys (no iron wheels) or deposited in the temporary storage area. See details on pages 9 and 10.
Sampling of refrigerated products	Against advance reservation with the caretaker there is the possibility to park a small cooling truck for half a day. Attention: Maximum length of the vehicle 6 m
Restrictions for floor loading per m ²	The wheeled containers must not be fitted with iron wheels. Heavy point loads are to be avoided, as the ground is very delicate.
Suspension points	Not available.
Power connection	"P1": power socket approx. 10 m from the stand area.
Parking	There are no parking spaces available for the promoters. Please use the public station parking. Parking lots cannot be reserved. Payment directly on site according to the public conditions.
Access to WC facilities	Only possible with promotion key.

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be
- The wheeled containers may be brand-labelled (and so may beach flags etc.).

Delivery storage room

Entrance delivery

Access via normal delivery route (Bankstrasse) for shops. The maximum entrance height is 3.7 m.

Promotion key, storage room and material storage at the sampling points

Promotion key

- The hand-over of the promotion key takes place on site by prior arrangement with the caretaker 079 277 80 53, tobias.schaerlig@equans.com.
- If the key is lost, compensation of CHF 500.- will be invoiced.

Storage room

- As space for the temporary storage of promotional products, the technical room located in the delivery is available on advance notification at the caretaker 079 277 80 53,
 - tobias.schaerlig@equans.com.
- No goods may be placed in front of the switch cabinet on the left wall.

Material storage at the sampling

- Under the stairs near the Press & Book shop.
- The material storage must be clean and tidy at all times.
- Overnight material storage is not possible.

Parking for cooling vehicle

Parking for cooling vehicle from 10.00

• By arrangement with the caretaker 079 277 80 53, tobias.schaerlig@equans.com a smaller cooling vehicle with a maximum length of 6 m can be left in the delivery area or a morning or afternoon.

• Electricity 220V and 380V in the delivery area. There is no adapter available.

Parking for cooling vehicle before 10.00

- The cooling vehicle cannot be left permanently in this place before 10.00.
- · Promotional or sampling material can be unloaded in portions, after that the cooling vehicle must leave the delivery
- There is a parking space in front of the garage entrance where the vehicle can be left until 10.00.
- Advance notification to the caretaker 079 277 80 53., tobias.schaerlig@equans.com

Power connections

The power socket is located about 10 m from the promotion area. The access is free.

Promotion area

At the meeting point near the column, basement, area 3×4 m = 12 m².

Sampling point, Güterstrasse / head building south, city level, exit Gundeldingen

🚮 2 quarter distribution points, exit Centralplatz , city level right, max. 1 promoter per quarter point

Sampling point, passarelle in front of head building

The sampling points are each marked on the ground with a sticker. The promoters are only allowed to be near these points.

Promotion area, hall of the station $7 \times 5 = 35m^2$

Promotion area, Meret Oppenheim-Platz, Gundeldingen max. $10 \times 10 = 100$ m²

Services

SBB free Wi-Fi	More information at: https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-ambahnhof/free-wifi.html
Registration of promotions	Facility Management must be contacted by email at least 5 days before the start of the promotion. The e-mail address will be communicated when the permit is issued. Special at Basel SBB station: The logistics center is managed by SBB organization (Logistics center MOS). The distribution goods are transported to the promotion warehouse by this organization. From the promotion warehouse onwards, the organizer is again responsible for the logistics.
Logistical information	Distribution goods are delivered via the Meret Oppenheim-Strasse logistics center (LZ MOS). Transportation to the promotion room is arranged by the LZ MOS staff. Further information can be found under "Information Logistics Center".
Storage room	Is available. The maximum storage capacity (uncooled) is 10-15 pallets.
Sampling of refrigerated products	A refrigerated room is available. Capacity of max. 11 pallets. Parking of a refrigerated truck is possible in the MOS logistics center during the entire promotion. A freezer room is available. Capacity of max. 6 pallets.
Access P1 and P2 with vehicle	The maximum floor load is 500kg/m2. Up to 2000kg at certain points. Vehicles up to 3.5m permitted. Dimensions for access to the promotion areas: P1: max. entrance height 3.0 m / width 3.7 m P2: max. entrance height 3.3 m / width 5.8 m Access is only permitted with an accompanying person from SBB Facility Management.
Floor covering on promotion area P1 and P2	The surface (bitumen) of the pitches is very sensitive and the ground must be protected. Care must be taken to ensure that no sharp or angular objects are placed directly on it (e.g. heavy scaffolding or vehicle supports). No anchors may be placed in the flooring on the P2 surface. This can cause dents in the surface (especially in warm weather and sunshine). All supports, underlay wedges and other parts must be placed over a large area. The organizer is liable for any damage.
Power connections	For electricity there is a sink with various connections available. You can obtain access from Facility Management. See details on the following pages.
Access to WC facilities	Use public restrooms.
Parking	There are no parking spaces available for the promoters. The public station parking lot must be used. No parking spaces can be reserved. Payment is made directly on site at the public rates.
Transsicura/Facility Management	The security center is located on the south side of the station passerelle. Keys and batches are only handed over on presentatio of ID.

Important information for distribution campaigns

- Guide lines for the blind must be kept clear at a minimum distance of 60 cm.
- In underpasses and basements, a maximum height of 2.70 m applies to branded distribution containers
- (e.g. beach flags). Any damage to sprinkler systems will have serious consequences and will be charged to the agency
- or the customer.
- A maximum of 4 promoters and one rollable container per promoter are permitted per entire distribution point.
- The rollable containers may display branding (incl. beach flag etc.).
- With the split sampling points "S1", you benefit from a larger distribution radius and therefore more customer contacts. The maximum number of four promoters remains unchanged.

Special opening hours: 18:00 - 05:00 (registration 24

hours in advance)

- · Approach from the west, Margarethenstrasse.
- At the parking garage signs, turn right into Meret Oppenheim-Strasse.

(Approach from the east not possible, no turning possibility!)

• Access to the logistics center on the right in front of the Meret Oppenheimer tower.

If the entrance is blocked by a waiting vehicle, a loop must be driven. A maximum of one vehicle may be parked in the driveway.

- The driver must register using the bell call button or by telepho-
- The instructions of SBB staff must be awaited and followed.
- Entry is only permitted after ap-
- Pay attention to the traffic lights.
- Exiting vehicles always have priority.

Information Logistics Center (LZ MOS)

Access restriction

- Turning radius: max. 22 meters
- Smallest clear width for passages: 3.65 meters
- General clear heights: 4.2 meters
- Clear height in front of the waste disposal containers: 4.6 meters
- Ramp gradient: 10%, at one point 14%

Not allowed

- Trailer
- · Semi-trailer
- Lowered lifting device
- Vehicles over 15 meters in length

Procedure for entry and exit

- Registered vehicles press "Ja" on the touchscreen (press the blue button).
- Observe the traffic light.
- "Green" = entry permitted for 1 vehicle.
- Drive onto the assigned ramp or parking space.
- Stopping on the entrance ramp is prohibited.
- The ground markings and the instructions of the SBB staff must be observed.
- Exiting vehicles always have priority.
- A vehicle will only be admitted if parking space is available.
- Only one vehicle may remain at the waiting position at the entrance.
- Rejected vehicles must leave the access area immediately.

Exit

- Drive up to the "STOP" ground marking.
- Traffic light "Red" = Stop
- Traffic light "Red flashing" = Exit registered, please wait
- Traffic light "Green" = Exit permitted (for 1 vehicle)
- Observe the traffic light at the gate.

Exit from the disposal area

- · Remain in the parking lot as long as the red light is illuminated.
- Do not block the driveway (danger).
- Press the button.
- "White" light = exit announced, please wait
- "Green" light = driving up to the gate permitted
- Observe the traffic lights at the gate.

Loading and unloading incl. access ramps

- The LZ MOS terminal is operated internally at SBB by Company Transport & Logistik (CTL).
- CTL assigns the loading and unloading positions to the incoming trucks.
- The following parking spaces are available:
- · 4x parking spaces with adjustment ramp for trucks up to 12 meters, two of which are permanently occupied
- - 2x parking spaces for trucks up to 10 meters with rear unloading on a fixed ramp
- - 4x delivery van parking spaces (please note: the height is limited to 2.6 to 2.8 meters in some cases)
- - 1x parking space for trucks up to 10 meters in front of MOH
- Loading and unloading must be carried out by the freight forwarder. The CTL unloads from approx. 4 pallets.

Direct delivery to the distribution points and promotion area P1

In the following two cases, deliveries may be made via the east wing of the station:

- 1. Loading and unloading of stand material for the P1 promotion area
- 2. Loading and unloading distribution containers during distribution campaigns

The vehicle may only be parked on the sidewalk (see sketch) for the loading and unloading of distribution containers, beach flags, stand material etc.. The vehicle must be removed immediately afterwards!

The distribution goods must be delivered via the Meret Oppenheim-Strasse logistics center (see pages 5 & 6).

Parking at Centralbahnstrasse 22 - 26 (along the east side of the office building)

Delivery exclusively for loading and unloading stand material and distribution containers!

Delivery of promotion area P2 / Meret Oppenheim-Platz

Deliveries will be made via Meret Oppenheim-Strasse, at the delivery ramp under the Passerelle.

The keys to open the gates can be obtained from Transsicura (monitoring center) at Basel SBB station.

From the ramp, you can reach the P2 promotion area through an intermediate space.

Power connections

Power connection P1

The minimum distance of 0.60 m parallel to the guide line for the blind must be observed.

Power connections are located in the floor box, 1 x CEE 32A (3X400V) und 3 x T13 10A (230V). Access only by facility ma-

Power connection 2

The power sockets (1 x CEE32A und 1 x T25 400 V 16 A) are located approx. 10 m from the area on the ground. You can obtain access via Facility Management.

Parking	A parking lot is available for a maximum of 30 min. for unloading and loading the material.
Access to WC facilities and changing room	You will receive a toilet key and access to the changing room from the janitor against signature.

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be
- The wheeled containers may be brand-labelled (and so may beach flags etc.).

Delivery storage area

Delivery

The car park for deliveries is located at «Place de la Gare 1, 1700 Fribourg». The use of the car park must be announced in advance to the caretaker (051 222 21 11).

Car park

Vehicles must not be parked permanently. The maximum unloading time is 30 minutes.

Storage area

Directly behind the delivery parking lot is a black door, through which you can get to the storage area.

After the entrance (black door), the storage area is located after approx. 25 m on the left side. Access only by appointment with the janitor (051 222 21 11).

Capacity of the storage area is max. 6 pallets.

Long-term parking space for the cooling vehicle max. 12 tons

It is possible to park a truck with trailer of max. 3.5 tons or a truck without trailer of max. 12 tons upon prior request.

Long-term parking space for the cooling vehicle up 12 tons

Vehicles weighing over 12 tons may park in the parking lot along the road which is only accessible with a badge. You can get the badge from the janitor (051 222 21 11).

Way from the parking lot to the distribution/fundraising place

From the car park, walk towards the ramp.

Walk along the platform 1 to the elevator.

Take the elevator to the ground floor.

When you get out of the elevator, the distribution/fundraising space is directly in front of you on the left.

Parking space and power connection for the cooling vehicle

You can use the power connection which is located at the same place as the truck parking lot.

There is a 400V 16A CEE power connection available.

Logistical information

Delivery and storage room

The goods are brought to the storage room via the official delivery at Robert-Zünd-Strasse, with a stay of up to 30 minutes. The sampling points are then delivered from the storage room.

Delivery directly to the distribution point with small vehicle (without storage room)

The sprinter or minibus is located on the promotion car park (see map "PP") Luzern station, Robert-Zünd-Strasse. The distribution points are delivered directly from the car.

Important information:

- on request, a parking space for 2 Sprinter minibuses (max. length 7 m each) or 1 truck (max. length 9 m) is available (see photo next page)
- the emergency access must be clear at all times
- no storage of goods allowed on the promotion parking space
- please get in touch with the Luzern station contact point by e-mail at least 5 days in advance

Goods lift

Number of goods lifts: 2 (2 t + 4 t) / height maximum 2.40 m / width maximum 1.70 m / depth maximum 3 m

Parking for delivery and cooling trucks

Delivery storage room

The availability of the storage room is not always guaranteed. Please contact the contact point of Luzern station by e-mail at least 5 days in advance. The storage room must be returned in a clean condition. Residual material, waste, empty pallets, etc. must be disposed by the tenant.

- size: approx. 38 m²
- there is no power connection available
- door dimensions: height 2.10 m, width 1.30 m
- passage width from the storage room to the promotion spaces is 1.70 m

Key box for storage room badge

Accesses and door openings to the key box

The key box is located on the 1st floor, Zentralstrasse 1 (door on the right when you leave the elevator)

Opening hours

The key box for the badge of the storage room is accessible: Mon-Fri from 06.00 to 21.00.

Handling of the key box

Touch the center of the display.

Tap the «Anmelden» field.

Enter PIN and then tap «Login».

The right side of the key box is displayed and the authorized drawers open automatically. (If the drawers do not open automatically, please tap the corresponding no. «marked green» on the display).

For key removals (promo badge) tap at the bottom left on <<LZ HB Key Zentralstrasse 1, 1. OG

The display shows the left side of the key box. (the authorized slots are marked in green).

Open the door and remove the unlocked plug (will be marked with blue light for a short time).

Warning:

Please note that all withdrawals must be returned to the key box at the correct no. or drawer each day in the evening. If this is not done, an alarm will be generated and Tech. F11 will be asked to look for the missing plug or its owner, which would cause costs.

Height restriction «P1»

Promotion area
If the full width of the promotion area is required, it is necessary to take into account the height restriction.

Power connections

Power connection P1

Electricity panel "type A" 4 × T23 / 16 (230 V) 4 × T25 / 16 (400 V) Total 63 A

Electricity panel "type B" 2 × CEE / 32 (400 V) 2 × CEE / 32 (400 V) 4 × T25 / 16 (400 V) Total 63 A

The power connections must be ordered at an early stage. The contact point of the SBB facility management will be communicated with the approval.

 $2\,half\,sampling\,points, in\,front\,of\,the\,SBB\,counter\,building, to\,the\,left\,and\,right\,of\,the\,stairs, max.\,2\,promoters\,each$ point.

Important: The promoters are only allowed to stay in the immediate vicinity of the sampling points so that the flow of passers-by is not affected.

Olten station

Promotion area, in front of the bakery Hug, to the left and right of the stairs, $6.2 \times 5.2 = 32 \text{m}^2$

Services

SBB Free-Wifi	For further information, visit: https://www.sbb.ch/en/station-services/railway-stations/products/free-wifi.html
Storage room	It is possible to use a storage room as an interim storage facility during promotions/samplings by prior arrangement with the facility management. It is located one level below and is mainly accessible only via the stairs. A badge for access to the storage room can be obtained from the facility management upon advance notification. The badge must then be returned to the facility management.
Sampling of refrigerated products	There is no possibility to implement cooled sampling actions.
Access to delivery parking lot	Access via the normal delivery for shops via Gösgerstrasse. The delivery parking lot may only be occupied for unloading the material. Afterwards the vehicle must vacate the space.
Logistics information	There is a delivery route to the promotion area and the sampling points. Another delivery route leads to the storage room. See details on pages 10 until 12.
Restrictions for floor loading per m ²	Max. payload 500k g/m².
Power connections	For "P1", "F" and "S1" there is a socket above the surface. The distance from the ground to the socket is 3.7 m. See info on the last page.
Access to WC facilities	Please use public toilets.
Parking	There are no parking spaces available for the promoters. Please use the public station parking. Parking lots cannot be reserved. Payment has to be made directly on site according to the public conditions.

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- Each sampling point is limited to a maximum of 4 promoters, each with one wheeled container for the goods to be distributed.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).
- With the splitted sampling points "S1" and «S2» you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, i.e. a maximum of two per half sampling point.

Access to delivery parking lot

Access to delivery parking lot Access via normal delivery for shops (Gösgerstrasse).

Delivery Promotion area and sampling points

Delivery Promotion area and sampling points

There is an elevator right by the parking lot for deliveries. This elevator takes you one floor down into an underpass which is not accessible to the public.

Code for elevator

The code for the goods lift can be obtained on advance notification from the facility management 051 222 21 11.

Underpass

Once you reach the underpass, a tunnel leads to the other side of the platforms, where there is another elevator. With this elevator, you can directly get to the platform.

Platform

When you come out of the elevator, turn left along the platform for about 80 m and you will reach the promotion space and the sampling points.

Delivery storage room

Delivery storage room

The delivery to the storage room is made from the delivery parking lot via the pedestrian underpass south.

Storage room

Storage room

- For the temporary storage of the promotion goods there is a storage room available in the south underpass by prior arrangement with the facility management 051 222 21 11.
- The necessary badge for the entrance to the storage room can also be obtained from the facility management by prior arrangement.
- The storage room is one floor lower than the promotion spaces and is only accessible via the staircase.

Storage space in storage room

The storage area is located in a long room almost at the end. After entering through the first door, straight ahead through the next door. See photo.

Storage space in storage room

After 2 doors and a corridor you reach the storage area on the left side. The place is marked with "PROMO" on the wall. It offers space for 3 to 4 pallets.

Power connections

Power connection P1

The power socket (230V/16A) is located 3.7 m from the floor above the promotion space.

Delivery to logistics center and short-term delivery

1. Delivery logistics center Europaallee

The central delivery runs via Freischützgasse 30, 1 UG.

Every delivery must be registered with the contact. The contact will be notified with the permit.

It is possible that the desired delivery time is fully booked and no delivery can be made via the logistics center.

- Maximum speed 10km/h
- Pedestrians have right of way
- Only use the assigned delivery space
- · Reversing onto the ramp
- Switch off the engine
- Do not store any goods on the ramp or at the delivery point
- Smoking is strictly prohibited throughout the delivery area
- · Semi-trailers and trailers are prohibited

2. Short-term delivery Europaplatz, max. 30 minutes

For larger deliveries for the P1 area or for distribution campaigns, a delivery van/truck can be temporarily parked on Europaplatz or Sihlpostgasse.

Various events take place on Europaplatz; depending on the event, access may be restricted or not possible at all. The person responsible for the promotion must inform themselves about the events.

3. Short-term delivery Sihlpostgasse, max. 30 minutes

Truck access to Sihlpostgasse is only possible to a limited extent. This delivery is only to be used in exceptional cases and must be agreed with the logistics contact on site.

Entrances and exits to the Europaallee logistics center

Access route to Europaallee by truck and car for loading and unloading goods. Trucks may only enter the building after prior coordination with the Facility Management Zürich.

Entrance from Lagerstrasse into Freischützgasse in the direction of the parking garage.

Entrance from Freischützgasse into the parking garage. Maximum entrance height 4,1 m

Specifications Zurich Europaplatz

Zurich Europaplatz

Two half distribution points, exit Europaplatz, max. 2 promoters per half distribution point. Attention: Stand outside the canopy and the guide lines for the blind. The width of the stairs must be kept clear.

Observe the markings on the ground.

Services

SBB Free-Wifi	More information at: https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-am-bahnhof/free-wifi.html
Delivery	You must notify the porter in advance of delivery. Delivery is possible between 5am and 12.30pm. For more information, see «Logistics information / Delivery».
Power connections	Available. See details under «Power connections».
Storage room	A storage room is available. Use must be registered with the porter in advance. Distribution goods must be unloaded within 30 minutes and transported to the storage room. See information under «Logistics information / Delivery». There is a power connection in the storage room.
Sampling of chilled products	Sampling of refrigerated products is possible to a limited extent: long-term parking of refrigerated vehicles must be specifically clarified in advance. Delivery and long-term parking must be booked in advance with the concierge. See information under «Logistics information / Delivery».
Parking	There are no parking spaces available except for delivery. Delivery may take a maximum of 30 minutes. The vehicle must then be driven away again. Longer downtimes must be specifically clarified.
Access to WC facilities	Access with SBB badge. The badge is issued by SBB Facility Management. Contact will be notified with the authorisation.

- No objects may be placed within 60 cm of guidance systems for visually impaired persons.
- Underpasses and lower levels are subject to a maximum headroom of 2.70 m for branded sampling containers (e.g. beach flags). Any damage to sprinkler equipment will have serious consequences, which will be charged to the agency or the customer.
- The wheeled containers may be brand-labelled (and so may beach flags etc.).
- With the split sampling point "S1" you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, i.e. a maximum of two per half sampling point.

Logistics information / Delivery

From the Lagerstrasse turn right into Eisgasse.

Continue straight through the pedestrian zone.

Straight into the logistics centre.

Continue straight until you reach the pedestrian zone.

Before the track area, turn right into the underground.

Services

More information at: https://www.sbb.ch/bahnhof-services/am-bahnhof/dienstleistungen-am- bahnhof/ free-wifi.html
Space for up to 20 pallets upon request, for details see delivery storage room.
Via transverse hall platform 18, max. height 4,50 m, weight: max. 32 t. Please note: Blocking times for entrances, for details see logistics information plan on page 15.
Parking with cooling truck, maximum 9.4 m length and without trailer in "Hof Grün" possible with early reservation (details on page 17). The booking must be made at least 5 working days in advance via zhb.promo-support@sbb.ch. Power connections for cooling units are available. The max. vehicle weight is 28 t. On request and if available a separate small refrigerated trailer of max. 5 m length can be parked on parking lot 21. Details according to plan "parking spaces in the short-term parking Museumstrasse" on page 19.
These are located 19 m above ground. There are 16 firmly defined suspension points. The towing capacity per point is between 200kg and 800kg.
Only on promotion space "P1", ground supply shafts. Normal pressure 3.5 bar. Pressure increase up to 7 bar. Waste water outflow 100 mm.
Max. 32t truck. Vehicles or loads heavier than 6kN7m2 must be checked individually.
Only on promotion space "P1", punctual anchoring hooks for max. 500 kg tensile load.
Only on promotion space "P1", selective floor power sockets.
Access with SBB badge, to be ordered via the Facility Management: zhb.promo-support@sbb.ch.

Important sampling information

- Guiding lines for the blind must be kept clear with a minimum distance of 60 cm.
- In subways and basements, a maximum height of 2.70 m applies for branded sampling containers (e.g. beach flags). Any damage to sprinkler systems will have serious consequences and will be charged to the agency/client.
- · A maximum of 4 promoters per sampling point and one rollable container per promoter for the distribution goods are permitted. The rollable containers may have branding (incl. beach flags etc.). Free-standing beach flags are not permitted. With the divided sampling points «S8», «S9» and «S10» you benefit from a larger distribution radius and thus from more customer contacts. The maximum number of 4 promoters remains, that is. max. two per half sampling point.
